

Appl. No. 10/604,789
Amdt. dated June 17, 2005
Reply to Office action of May 26, 2005

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

5 Claims 1-25 (Cancelled)

Claim 26 (New): An electronic apparatus comprising:

- a housing comprising a plurality of holes on a first side wall;
- a transparent dust-proof member installed approximately parallel to the first side wall;
- a motherboard installed on a second side wall inside the housing;
- 10 a processor installed on the motherboard inside the housing for processing programs and data; and
- a memory installed on the motherboard inside the housing for storing programs and data.

- 15 Claim 27 (New): The electronic apparatus of claim 1 wherein the transparent dust-proof member is installed inside the housing.

Claim 28 (New): The electronic apparatus of claim 1 wherein the transparent dust-proof member is installed outside the housing.

20

Claim 29 (New): The electronic apparatus of claim 1 wherein the transparent dust-proof member includes glass materials.

Claim 30 (New): The electronic apparatus of claim 1 wherein the transparent dust-proof member includes plastic materials.

25

Claim 31 (New): The electronic apparatus of claim 1 wherein the transparent dust-proof

Appl. No. 10/604,789

member is installed on a side of the plurality of holes and adheres to the housing.

Claim 32 (New): The electronic apparatus of claim 1 wherein the transparent dust-proof member is installed on a side of the plurality of holes.

5

Claim 33 (New): The electronic apparatus of claim 1 wherein the first side wall is not neighboring to the second side wall.

Claim 34 (New): An electronic apparatus comprising:

- 10 a housing comprising a plurality of holes on a first side wall;
 a transparent dust-proof member inserted inside the plurality of holes;
 a motherboard installed on a second side wall inside the housing;
 a processor installed on the motherboard inside the housing for processing programs
 and data; and
15 a memory installed on the motherboard inside the housing for storing programs and
 data.

Claim 35 (New): The electronic apparatus of claim 9 wherein the transparent dust-proof member includes glass materials.

20

Claim 36 (New): The electronic apparatus of claim 9 wherein the transparent dust-proof member includes plastic materials.

Claim 37 (New): The electronic apparatus of claim 9 wherein the transparent dust-proof member is inserted in the plurality of holes and adheres to the housing.

25

Claim 38 (New): The electronic apparatus of claim 9 wherein the transparent dust-proof member is inserted in the plurality of holes.

Appl. No. 10/604,789
Amdt. dated June 17, 2005
Reply to Office action of May 26, 2005

Claim 39 (New): The electronic apparatus of claim 9 wherein the first side wall is not neighboring to the second side wall.

- 5 Claim 40 (New): A housing for a computer, the housing comprising:
- a first side wall for mounting electromagnetic radiation producing circuitry;
 - a second side wall comprising a metal net of a fineness capable of substantially preventing electromagnetic radiation generated by the circuitry from passing through the second side wall in quantities greater than a predetermined limit, a
 - 10 plurality of holes formed by metal in the metal net for providing visual access to the interior of the housing; and
 - a substantially transparent dustproof member installed approximately parallel to the metal net such that dust is prevented from passing through the plurality of holes into the interior of the housing.
